The DP41-W is a highly accurate, stable weigh meter with an IP65 (NEMA 4), splash-proof key pad. The meter has adjustable filtering for achieving rock solid readings in critical applications. This powerful meter is all self-contained in a traditional 1/2 DIN case design, and can be used as either a weigh meter, a normal two point scalable meter or a 5 point scalable meter. The 5 point scalable option lends itself to varying cross sections on liquid level tank measurements, for improving nonlinear sensor characteristics and a host of other applications. All of the DP41-W's options are field installable.
