ECONOMICAL SENSOR-POWERED FLOW INDICATORS

- Sensor Powered
- Economical Flow Monitoring
- Front-Panel Calibration
- Splashproof, Shatter-Resistant Acrylic Front Panel
 Easy to Install

Combining the FPM-5800 self-powered flowmeter with an FP-5300 or FP-5100 flow sensor and a matching sensor-installation fitting produces an affordable, completely self-contained flow monitoring system. The unit requires no external power or battery, so the user can mount it virtually anywhere. System hookup is simple, requiring only 3 flow-sensor wires connected to the terminal strip. Easy-to-install reversible dials give the scale of flow units appropriate for the user's installation.
